**SFERA Round Table CSP Component Standardization in Europe  
(Side Event ESTELA 2<sup>nd</sup> Industry Forum)**

Friday, 11<sup>th</sup> March 2011, 15:00 – 17:30

Hotel L'Etranger, Syracuse, Sicily  
Conference Room

This round table meeting is part of the activities of the EU-funded Project SFERA Solar Facilities for the European Research Area (<http://sfera.sollab.eu/>). It's networking activity NA3 aims at the development of industrial standards for CSP components in Europe through expert working group and round table meetings. The present round table meeting aims to provide an overview of the current state of technical standard preparations and ongoing national and international efforts to create formal standards and support the creation of European Standards for CSP components. After the initial keynote presentations of the invited speakers (see agenda below) broad room for discussion and active contributions is foreseen, to exchange experience and information in this topic and to strengthen the network for further collaboration. Short presentations of up to 5 minutes from attendees are very welcome as additional contributions to the meeting; interested participants please mail your proposal to [christoph.richter@dlr.de](mailto:christoph.richter@dlr.de), also if you would like to submit questions to the panelists in advance.

**Agenda:**

15:00 Opening (Eckhard Lüpfert, DLR)

Keynotes:

- Expectations, requirements and benefits of CSP standards - Which standards do we really need? (Eckhard Lüpfert, DLR)
- Status of Spanish standardization development in AENOR (Luis Crespo, Protermosolar)
- The Way to European Standards (Siglinde Kaiser, DIN Deutsches Institut für Normung e. V.)

15:45 Discussion

17:30 End of Meeting
