

SFERA – Solar Facilities for the European Research Area

Free Access to CSP Facilities

Great Opportunities for European and International Researchers

About SFERA Access 2009 - 2013

Within the framework of SFERA, the **Transnational Access** activities have opened the doors of the most relevant EU CSP R&D infrastructures to **European and international users (researchers and industries)**. In 4 years, 155 projects have been submitted to access the SFERA installations and 130 have been accepted.

CSP Research Infrastructures Offered

PROMES	Odeillo, France
PSA	Almeria, Spain
ENEA	Casaccia, Italy
PSI	Villigen, Switzerland
WIS	Rehovot, Israel

How to Benefit from the Free Access?

- By submitting a project proposal on the SFERA website.
- The call for proposals for SFERA is now closed but SFERA 2 will be launched from January 2014 until December 2018 with new calls for proposals. **Don't miss this opportunity!**

Access Free of Charge

- No costs for the users to access and use the installations.
- All expenses, including travel & accommodation are reimbursed.
